

WALL WORDS DECORATIVE FLOWER POT

Wall Words Consultant Jennifer Boody from Spring Lake, MI came up with this great idea! Jen used Wall Words to add flair to colorful yet inexpensive flowerpots to give as a holiday gift, hostess gift, birthday gift, Mother's Day gift, housewarming gift, thinking of you gift, or to keep for yourself!

Materials Needed:

➔ Wall Words decorative ends in bright colors to coordinate with your flower pots, which can be ordered from the www.wallwords.com web site

➔ 3 (or more) flowerpots in colors of your choice

➔ Potting soil

➔ Bedding plants (flowering plants or garden plants)

➔ Garden trowel

Directions:

Make sure your flowerpots are clean and dry. Install the Wall Words decorative ends on each individual flowerpot. Just tape the decorative end on the flowerpot, remove the backing sheet, and then burnish the decorative end with the burnishing tool (included with your order).

Spread out newspaper to catch any soil overflow and add some potting soil to each pot. Add the bedding flowers or plant, and then fill the rest of the flowerpot with soil. Water your plants gently.

The flowerpots will look great wherever you place them, indoors or out. You can change the flowers to go with the seasons, too. Have fun!
